

Immunizations

According to new state immunization requirements, students who are not up to date with the state mandated immunizations will not be able to begin school on August 24, 2009. Parents are being encouraged to take their sons and daughters to get vaccinated early. Health Services Department has been hosting clinics at different campuses to assist parents with this immunization changes.

Even though we do not want any child to be left out, if immunization clearances are not received by the first day of school, the child will not be allowed to stay in school. "It is imperative that parents fulfill their responsibility and get their children immunized. It is the law." Avoid the long lines at the doctor's offices and the city health department by being proactive and ensuring that your children are up to date with their immunizations.

Law requires the following immunizations. An official immunization record is required.

Dpt/DTap/DT/TD/Tdap

Five doses are required for entry of Kindergarten students unless the fourth dose was received after the 4th birthday. Students age seven, starting their vaccine, are required to have three doses. One booster dose of a Tetanus/Diphtheria/Pertussis-containing vaccine is required for entry into 7th grade if at least 5 years have passed since the last dose of a Tetanus-containing vaccine.

Polio

Four doses of IPV required for Kindergarten students unless the third dose was received after the 4th birthday. It can be any combination of OPV or IPV. Not required of eighteen-year old students.

Meales/Mumps/Rubella

Two doses of MMR are required. The first dose shall be administered on or after the first birthday. The second dose is to be administered by age 5 or entry into kindergarten.

HIB

Three doses of Haemophiles Influenza type B vaccine and a booster if given before the child is 15 months or one dose of vaccine if given after 15 months; HIB vaccine is given through 4 years of age.

Pneumococcal

PCV7 is mandated for al students 3 through 4 years of age. The school nurse will evaluated the number of doses needed or if child is complete.

Menactra

Menigococcal Conjugate Vaccine protects students 11 years of age and older from Menigitis. One dose is required for students entering 7th grade.

Varicella (Chicken Pox)

Two doses of Varicella vaccine received on or after the first birthday are required for students entering Kindergarten and 7th grade. Two doses are required if the student was 13 years of age at the time the first dose of Varicella was received. If the student has had Varicella (Chicken Pox) illness, please request a form from the school nurse to validate illness.

Hepatitis A

Two doses of Hepatitis A are required for Pre-Kindergarten and Kindergarten. The second dose of Hepatitis A is required six months after the administration of the first dose.

Hepatitis B

Three doses of Hepatitis B are required for Kindergarten through 12th grade.
